Shell Earrings

Saturday 12th July 2014

These pretty shell shaped earrings are a favourite with students and by far my most popular design. There is no limit to the colour variations you can use. You can make them to match a special outfit for yourself or as a perfect gift, whether for a birthday or as a little thank you.

In this class we will use 2 or 3 colours of polymer clay to create a rainbow blend of colours for the shell shapes. There will be a small amount of wire work to fit the ear wires or studs to make the earrings. Also during the day there will be the opportunity to make a necklace to match the earrings.
